### Recognition Letter

ESS Support Services LLP highly appreciates “ЧС-ник.KZ” Partnership Group for its cooperation and provision of trainings for us.

In the last two years our employees acquire useful and necessary knowledge on CD through “ЧС-ник.KZ” Partnership Group. In the full amount we receive diversity of material, layperson’s terms, interest, useful tips, real and extreme cases and examples of life saving from trainers and rescuers.

I have personally attended trainings and every time I get admired and delighted by instructors, people whom I respect for their professionalism.

My special gratitude is for Antonina Pavlovna. She is very intelligent, patient, has organizational skills and competency, which makes our trainings interesting and highly effective. Antonina pays equal attention to each course attendant, knows and presents course material very well. Each Slides section contains video, audio, pictures that are useful for all people.

Yuri Sergeyev also played an important role in theoretical and practical education. His long-term experience based on real events, his useful tips are real treasure for all of us. We are very grateful for the opportunity to be trained by your company professionals.

We wish you success and prosperity.

Sincerely,

Nailya Kuzhiyeva  
Senior Administrative Supervisor  
Atyrau Transport Department
